MUTOKO RURAL DISTRICT COUNCIL

Finance quick reference

Desk reference; editable source and PDF

One-Day Practical Training Programme | Mutoko, Zimbabwe

Development edition • 12 November 2026. Delivery and acceptance pending.

Start here

Confirm documents.update and media access before Replace file. Finance title does not grant procurement awards or bank-account changes.

Training writes: isolated approved environment only. Missing access/evidence stays pending. Use the manual for full numbered instructions.

W7 | Create a financial or governance document

Content → Documents → Create

Rights: documents.view/create and permitted media.view/create; matching scopes

Correct draft links to the intended PDF and reporting year; only approved public publication appears to citizens.

Check: Category/year mismatch: correct metadata. Missing PDF or media visibility rights: stop. Default Department Content Owner lacks update/replace.

W8 | Replace a document and preserve history

Content → Documents → row action Replace file

Rights: documents.update + scoped document/media view; verify/publish separately

Version increases, previous media is retained, draft is re-reviewed and the current approved file is verified.

Check: Same media selected again: choose the corrected file. Action absent: Finance replacement rights have not been established; record pending.

W9 | Review, publish, withdraw and check visibility

Resource row → Verify / Mark publishable → Publish

Rights: Module-specific verify/publish rights and scope; vacancy verify uses vacancies.update

Only intended content is publicly accessible, or its withdrawal is verified.

Check: Draft/private/unverified/inactive-media/expired records can be absent. Page verification checks are not uniform; never rely on a universal gate.

W12 | Handle procurement publications safely

Services & Development → Tenders / Tender compliance

Rights: tenders.view/create/update/verify/publish; tenders.award for awards

Officer distinguishes publication, tender lifecycle, award approval and download registration.

Check: Awarded status needs contractor and award date. Document download checks are weaker than the general public-document scope; focused QA is pending.

Escalation contacts — fill before delivery

Content owner: _____ | ICT: _____ | Hosting/software support: _____ | Privacy/security lead: _____

Report exact environment, URL/time, symptom, safe error text and record ID. No passwords, recovery codes, session cookies or private complaint data.

Known limits

Authenticated screenshots/role walkthroughs, production rights, host operations, complete audit coverage, approved translations/accessibility and legal compliance remain unverified. See the included approved discovery baseline for all limitations.
