MUTOKO RURAL DISTRICT COUNCIL

HR quick reference

Desk reference; editable source and PDF

One-Day Practical Training Programme | Mutoko, Zimbabwe

Development edition • 12 November 2026. Delivery and acceptance pending.

Start here

Vacancy access must be explicitly approved; default Department Content Owner has no vacancy rights. Publication is a separate right.

Training writes: isolated approved environment only. Missing access/evidence stays pending. Use the manual for full numbered instructions.

W2 | Sign in, recover access and protect your account

/admin/login → profile / Forgot password?

Rights: Active account + admin.access + valid scope

Authorized participant sees only permitted navigation; account secrets remain private.

Check: No email: report to ICT for SMTP/sink checks. MFA loss: use secured recovery codes or ICT; no verified universal MFA-reset button is claimed.

W10 | Manage a vacancy with authorized HR access

Services & Development → Vacancies → Create / Edit

Rights: vacancies.view/create/update; vacancies.publish separately; advert document rights

Draft vacancy has correct dates, instructions and attachment; publication occurs only through authorized training access.

Check: Missing menu/Create/action: pending access, not participant failure. Missing advert does not establish a live online application facility.

W11 | Maintain approved department and staff information

Council → Departments / Officials

Rights: departments.update/verify/publish; officials.create/update/verify/publish as applicable

Approved public information matches the relevant department/official and related pages.

Check: Department activation is not the same as publishing its profile. Linked officials/documents each have their own visibility.

W13 | Handle enquiries, feedback and complaints privately

Public Enquiries → Enquiries → View

Rights: enquiries.view/update/route/assign individually; matching scope

Private record is correctly routed/updated with traceable, appropriate text; no real message is sent.

Check: Stale/invalid transition: refresh and inspect status. No mail: ICT investigates transport/worker; a success notification is not inbox-delivery proof.

Escalation contacts — fill before delivery

Content owner: _____ | ICT: _____ | Hosting/software support: _____ | Privacy/security lead: _____

Report exact environment, URL/time, symptom, safe error text and record ID. No passwords, recovery codes, session cookies or private complaint data.

Known limits

Authenticated screenshots/role walkthroughs, production rights, host operations, complete audit coverage, approved translations/accessibility and legal compliance remain unverified. See the included approved discovery baseline for all limitations.
